Maximizing Value: Benefits for Members of the National Auto Parts Industry Association

2024

INA.COM.MX

What differentiates us

The National Auto Parts Industry Association was founded in 1961 and represents more than **700 auto part manufacturing plants** with operations in Mexico.

We encourage the industry's different players to enter into agreements, discuss problems and propose solutions to them, depending on their level of priority.

We cooperate with government agencies, with a view to promoting national and regional development by growing existing investment and promoting new investment in the auto parts sector.

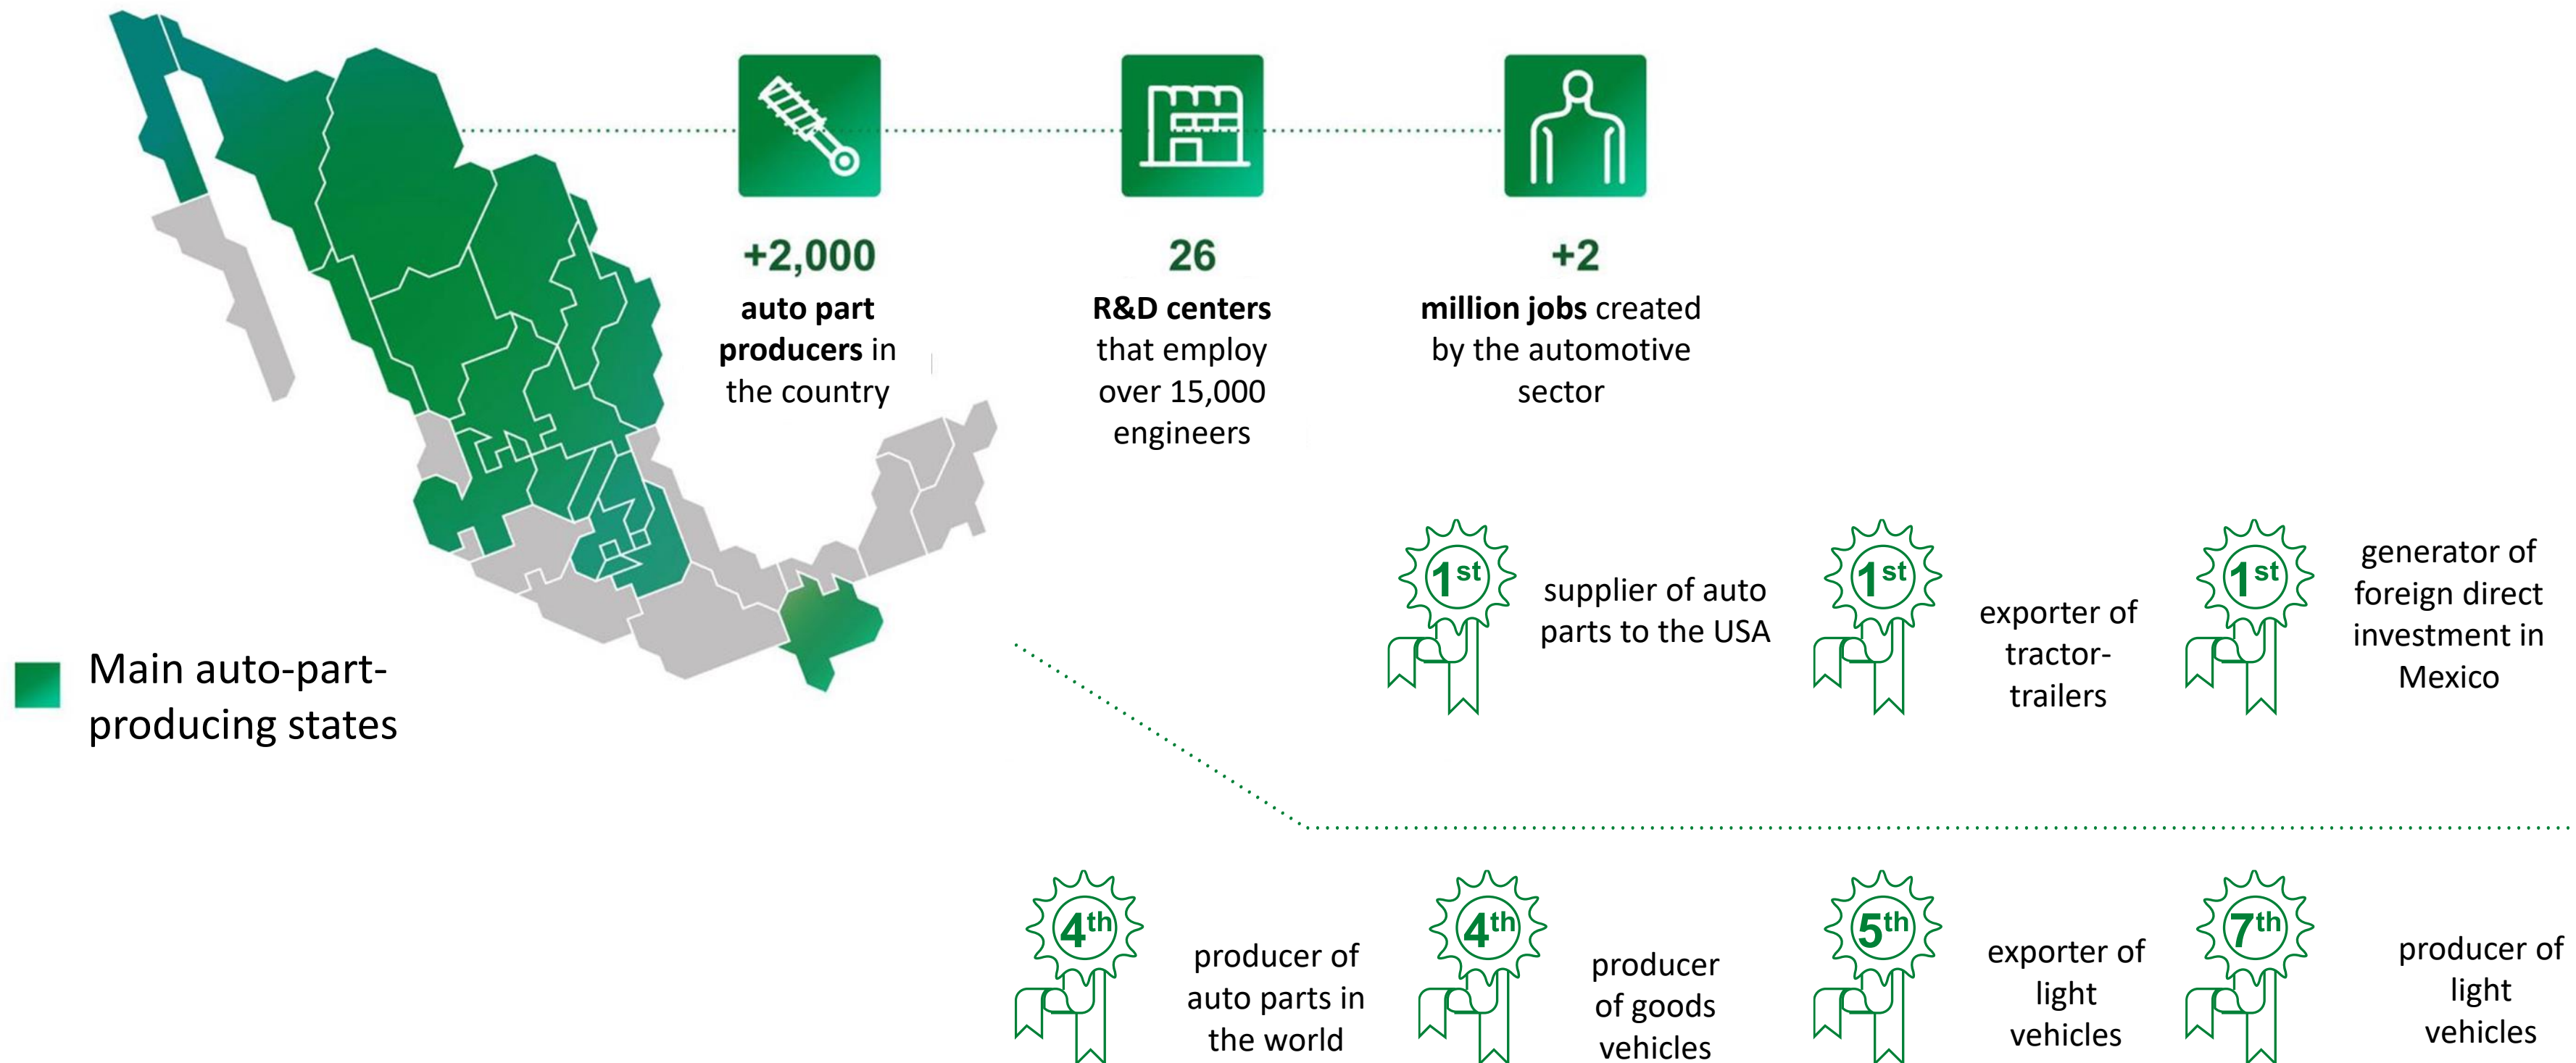

The strategic intelligence we generate analyzes the **technological challenges and opportunities** facing the industry.

Every year, we organize the **International Automotive Industry Congress (CIAM)** and present the **National Automotive Industry Award**, a unique accolade in its genre in Mexico that acknowledges the contributions of the industry's most outstanding actors and companies.

We also coordinate the **largest annual auto parts expo** in Latin America, **INA PAACE Automechanika**, which will feature the first edition of the **International Aftermarket Summit (IAS)** in conjunction with Messe Frankfurt and MEMA.

Key Indicators in the Automotive Sector

Exclusive INA Membership Benefits

REPRESENTATION

INA represents the auto parts industry before local, state and federal governments, leading industry actors and international organizations to ensure that its members have a voice in global business and regulatory matters. We set up strategic meetings with key government officials to discuss the industry's interests.

INFORMATION

As a member of INA, you will have exclusive access to updated information on regulations, government policies and market trends in the automotive sector. You will receive our Statistical Bulletin of the Auto Parts Sector in Mexico and our daily and monthly newsletters to ensure you remain abreast of all the latest developments and opportunities in the industry.

We also offer business intelligence tools to help you identify specific prospective buyers and/or suppliers.

TRAINING

We offer a wide range of professional development programs that range from webinars and conferences to courses and workshops designed to improve the skills and know-how of professionals in the automotive sector.

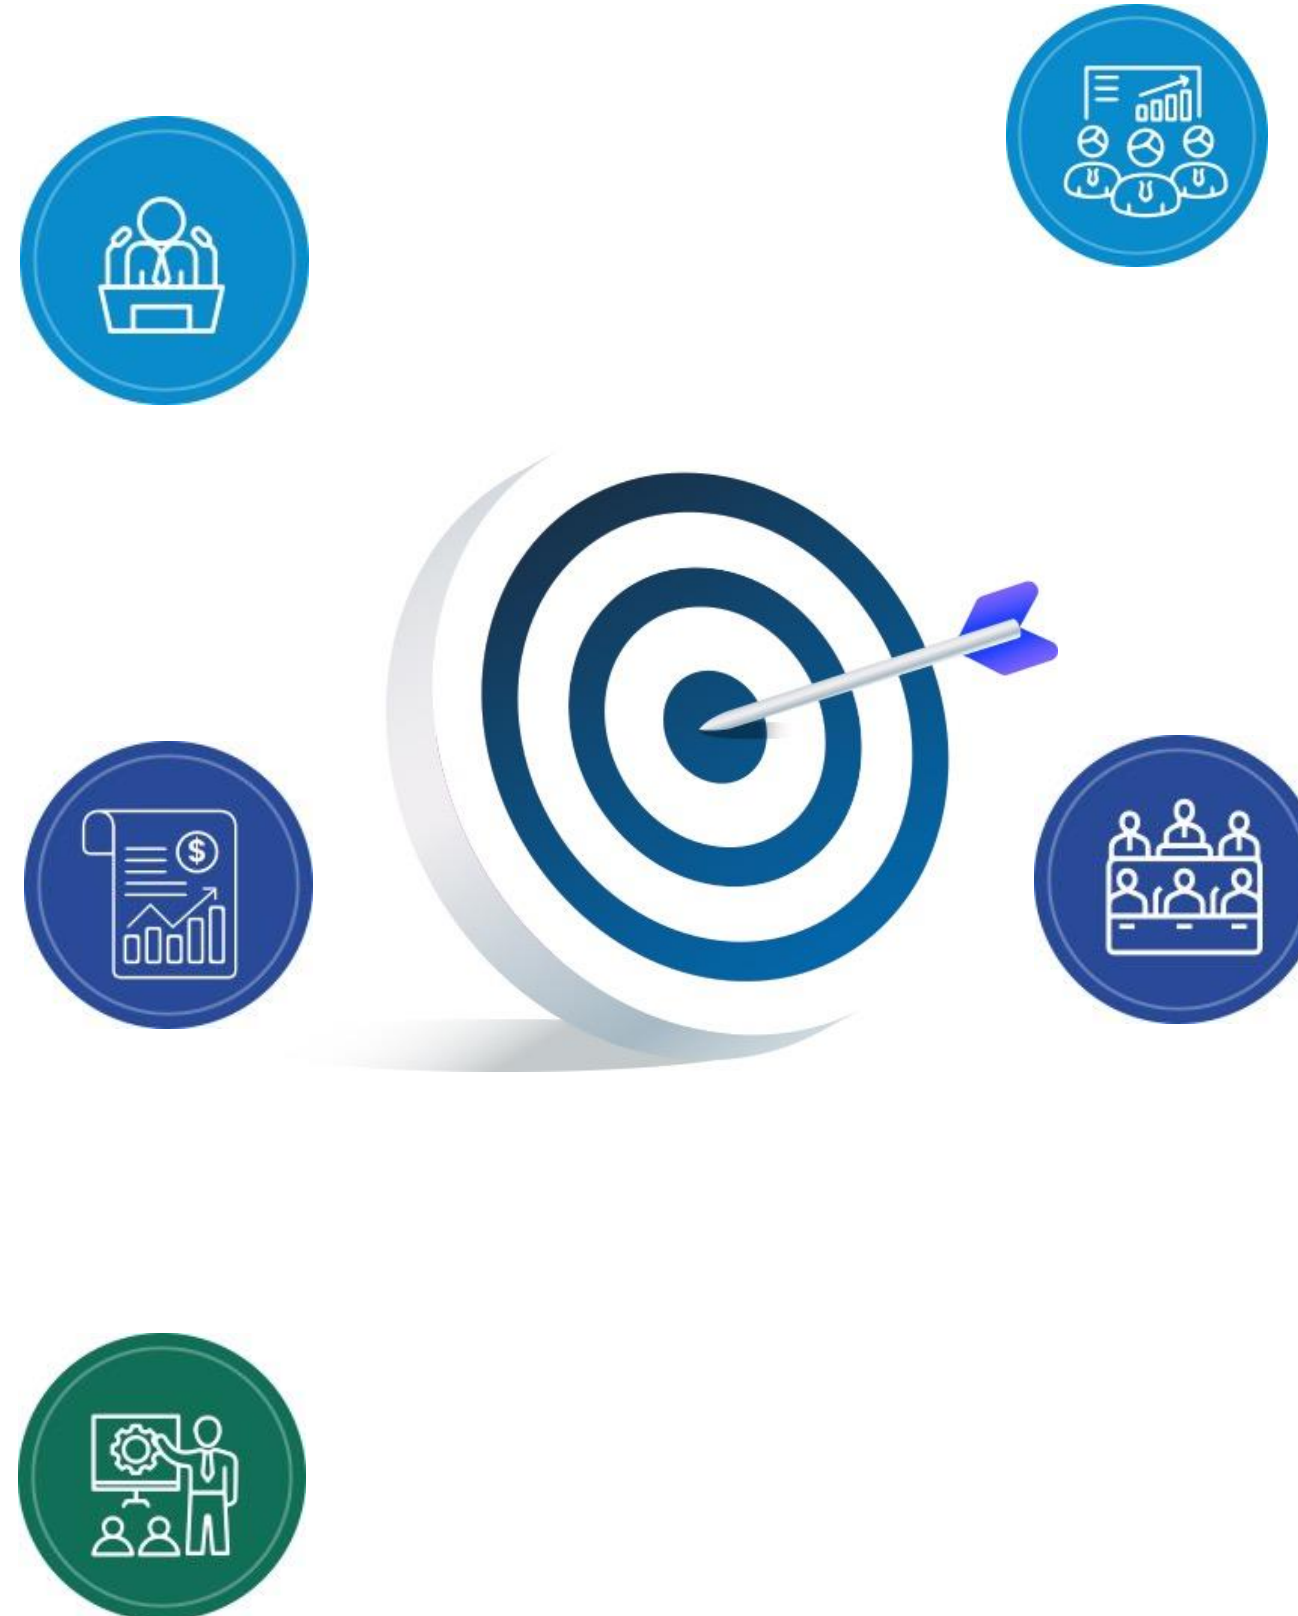

NETWORKING

Belonging to the INA affords you the opportunity to establish contacts and collaborate with other companies in the sector, with a view to generating new business opportunities, strategic alliances and synergies. We set up meetings with TI buyers and suppliers to facilitate business relations.

COMMITTEES

Members are invited to actively participate in INA committees, work groups and special projects that contribute to the development of the automotive industry. They also have the opportunity to speak at committee meetings and exert a direct influence on key initiatives in the sector:

- Original Equipment Committee
- Aftermarket Committee
- Foreign Trade Committee.
- Sustainability Committee
- Labor Committee
- Industry 4.0 Committee
- CCE
- CONCAMIN
- COPARMEX
- T-MEC Committee

Exclusive INA Membership Benefits

PROMOTION

The National Automotive Industry Award is the association's way of promoting its members by acknowledging their achievements and contributions. We also offer you the opportunity to advertise in media specializing in the sector and publish job vacancies.

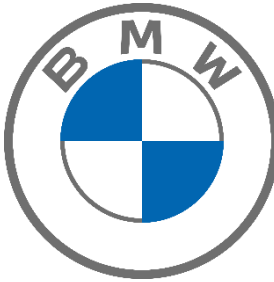

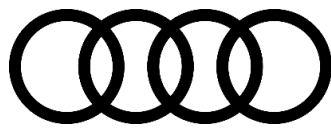

Your company logo will appear in a prominent position on our website and you can advertise your products/services via our digital channels and position your brand via sponsorship opportunities at digital and in-person events organized by the INA.
