

GABRIEL

PADILLA MAYA

Managing Director of the
National Auto Parts Industry Association

Gabriel Padilla Maya is the Managing Director of the National Auto Parts Industry Association (INA) of Mexico.

He has over 25 years of experience in senior roles within both the public sector and private industry, driving business development, strengthening public relations, and promoting Mexico's trade and investment on an international scale.

He holds a degree in International Relations from the Universidad Iberoamericana in Mexico City and has completed three master's degrees: in Economics and Government from Universidad Anáhuac, in Digital Marketing and E-commerce from OBS Business School and the University of Barcelona, Spain, and in International Trade from the Institute of Higher Studies in International Trade in Mexico City.

His career spans strategic roles in exporting companies and leading business organizations, as well as being a founding partner of consulting firms specializing in the internationalization of companies and the adoption of foreign trade promotion programs, such as IMMEX.

In the public sector, Gabriel Padilla worked in key institutions like ProMéxico, where he served as Head of the Investment Promotion and International Business Unit, and in the Secretariat of Agriculture, Livestock, Rural Development, Fisheries, and Food (SAGARPA), where he held the role of General Coordinator of Trade Promotion and Export Development. He was also Advisor Coordinator in SAGARPA, Chief Advisor Coordinator at the Secretariat of Economy, and Federal Delegate of the Secretariat of Economy in the state of Morelos, which has allowed him to build a strong network of connections with the public sector. Additionally, he founded the company Trade Front Advisors LLC, specializing in business internationalization strategies.

Gabriel Padilla brings extensive experience in foreign trade and international business, which is essential to strengthen the agenda of innovation, sustainability, and competitiveness in an increasingly demanding industrial environment, as well as to position Mexico as a global reference in the auto parts industry.
