Benefits for the Members of the National Auto Parts Industry

WELCOME TO INA!

A community that, since 1961, has represented the strength and innovation of more than 700 manufacturing plants in Mexico.

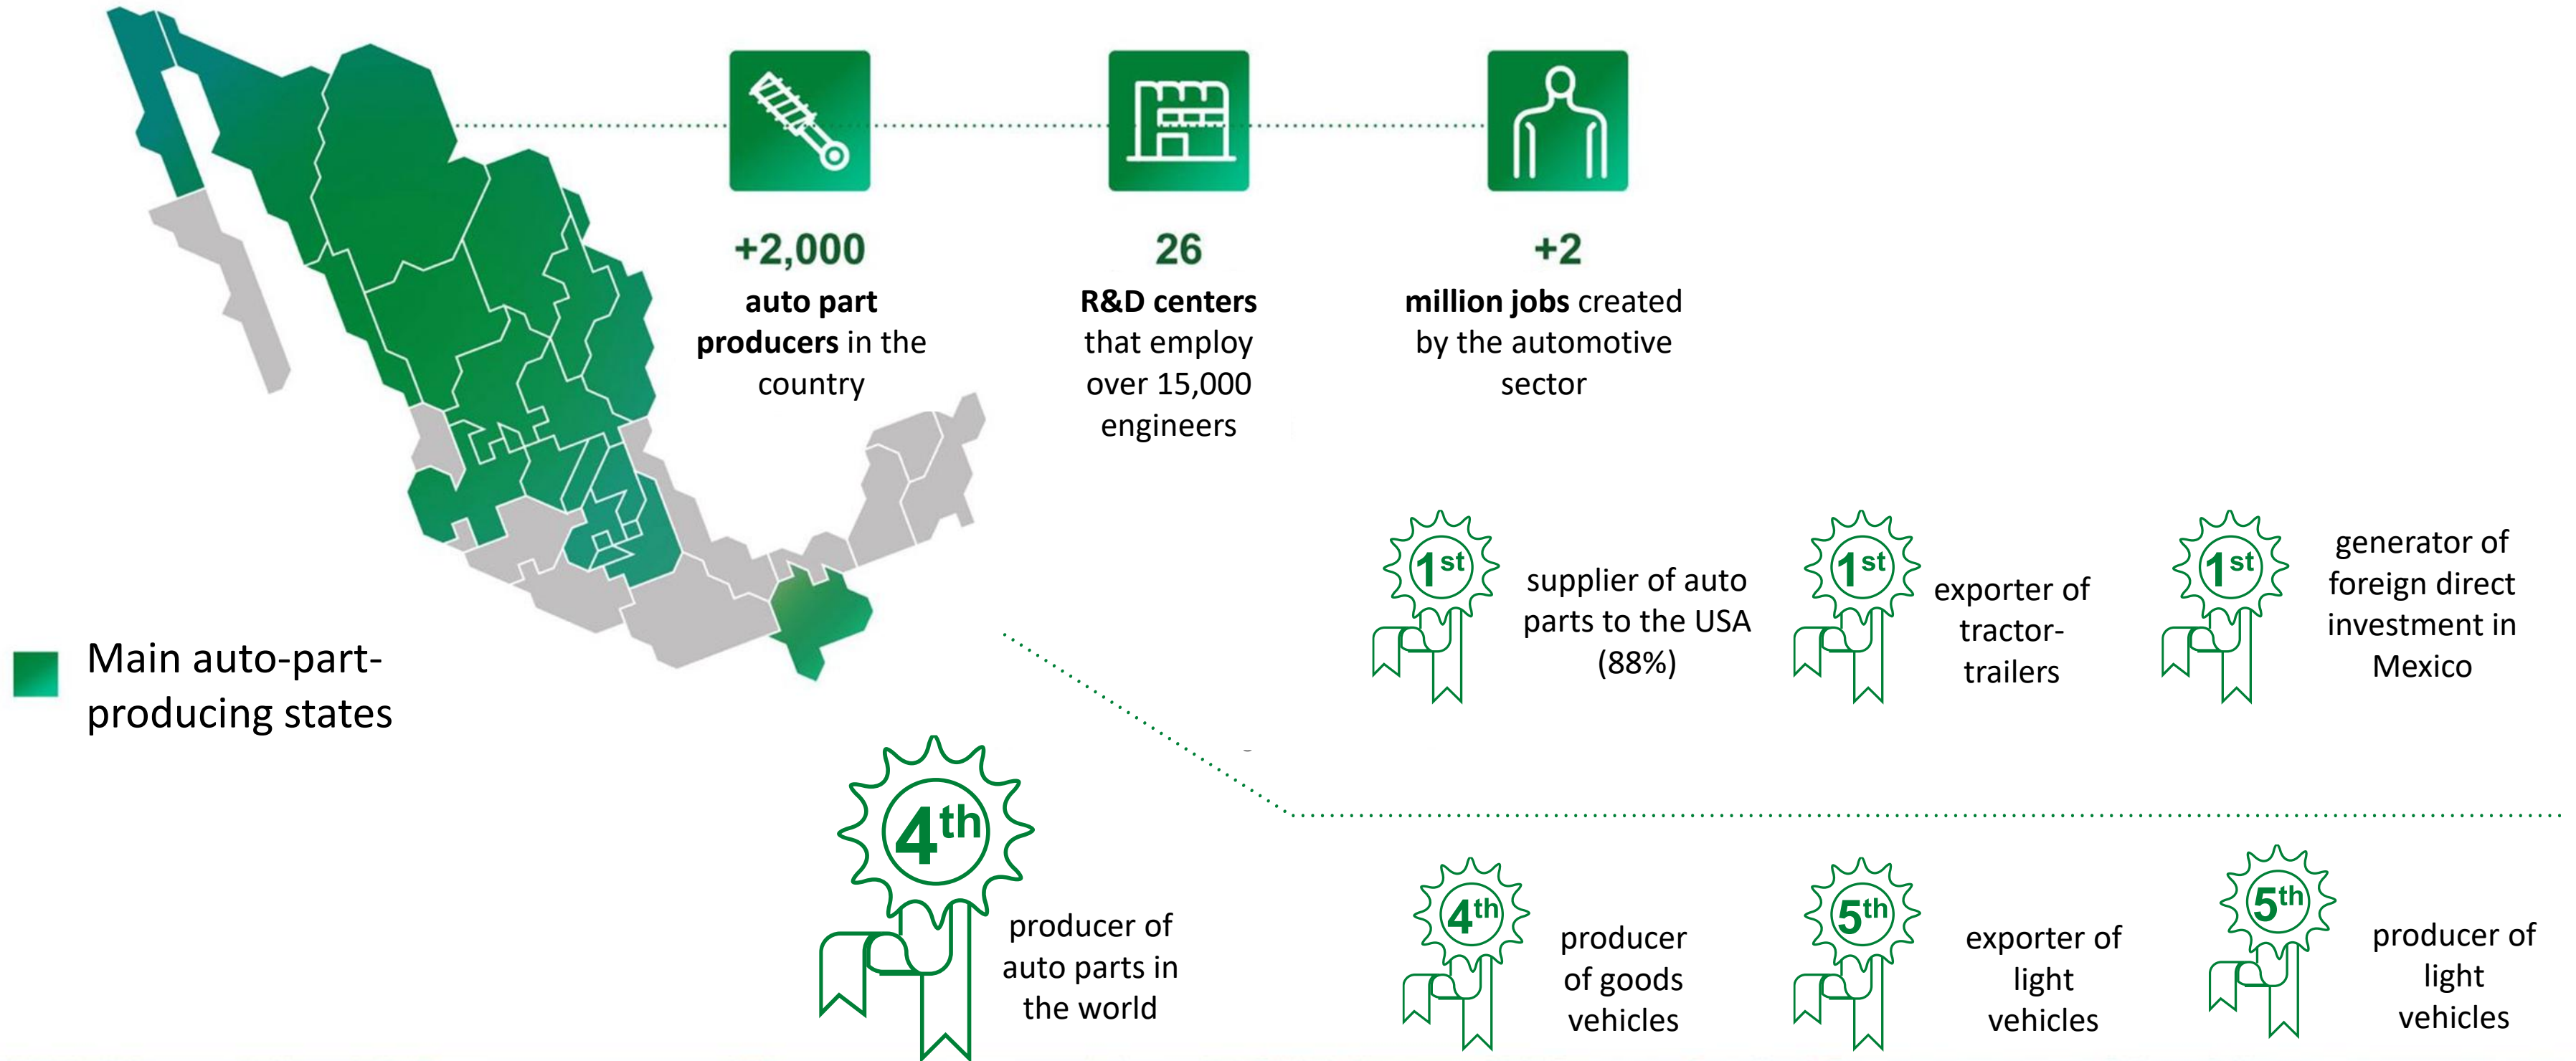

As a member, you will gain access to an active network that fosters strategic agreements, drives national and regional growth, and promotes investment in the sector. We invite you to benefit from strategic information, leading events such as the International Automotive Industry Congress (CIIAM), and the National Automotive Industry Award, which recognizes outstanding contributions from key industry players and companies. You will also gain access to the largest auto parts exhibition in Latin America: **INA PAACE Automechanika**.

Being part of INA means much more. We collaborate in global gatherings such as the **International Aftermarket Summit** and the **International Automotive Industry Supply Summit**, platforms where innovation and supply-chain opportunities connect on an international scale.

Joining INA means adding experience, opportunities, and connections to help your company continue growing—with the support and leadership of the leading association in the sector in Mexico.

Key Indicators in the Automotive Sector

Exclusive Benefits of Being an INA Member

NETWORKING

We set up meetings with T1 (Tier One) buyers and suppliers to facilitate business relations.

INFORMATION

Statistical Bulletin of the Mexican Auto Parts Sector
Business intelligence tool
